MOTOR CARS FOR THE BRANCH LINES

This Service May Be Adopted on Harriman System in Near Future.

BEEN LONG CONTEMPLATED ON OREGON SHORT LINE

Operation of Such Service Between Ogden and Salt Lake Desirable.

Notwithstanding the fact that rumors have been current for some days, and publication has been given to them in some sources that the Harriman system contemplates the operation of motors between Omaha and Ogden and Salt Lake City, denial is entered to the rumors, and it is given out that the motors are to be used, for the present, at least, on branch lines exclusively, and not on the main line. A few days ago six of the cars passed through Ogden on their way to California under their own power, where they will be utilized on branch lines.

A matter which has been under consideration at Oregon Short Line head-quarters here for some time is the placing of motors on the branch lines in this territory. The motor cars could be operated advantageously between Salt contemplates the operation of motors

operated advantageously between Salt-Lake and Ogden, from Cache Junction to Preston, and on the Woodriver branch in Idaho from Shoshone to Ketchum and similar branch roads, and

Ketchum and similar branch roads, and it is highly possible that this service will be inaugurated in the near future. Where mixed trains are run the motor is a handy source of transportation, and in the shape of interurban trafficities also a desirable means of conveyance. Its operation between Ogden and Salt Lake, for instance, is a desirable innovation. The service would be more frequent and as rapid as the steam sysfrequent and as rapid as the steam sys-tem, and it is much cleaner. Of course the local Harriman people

have not yet decided on this service, but it has long been contemplated and often discussed, and it may be that in the near future this method will be adopted, and thus effectively meet in-creasing competition, especially in the

HARRIMAN HAS NOT YET GOBBLED THEM UP

Two reports in which Mr. Harriman figured have been exploded. One was that he had become the dominating influence in the New York Central system and the other that he had helped the 'Frisco system' (which is a part of the Rock Island system) by 'gobbiling it up.' So far as the New York Central is concerned there seems no question that as Vanderbilt influence is waning Harriman influence is looming up. The Union Pacific is a large helder of New York Central stock, but inquiry shows that there have been no important changes in this direction during the last few months.

As to the 'Frisco being taken over by the Southern Facific, Rock Island interests say that the rumor is absurd. These men have not been disturbed by the striking fluctuation in the market quatations for Rock Island and 'Frisco securities. They have said that there was nothing in the condition of the various companies to warrant these rapid price changes and that probably in due time Wall street would become convinced that they were due chieffy to speculative tactics.

TO RESUME WORK FROM HILLSBORO TO TILLAMOOK

PORTLAND, Or., Sept. 1.—The Oregonian says today that construction work
on the ralitosid from hillsboro to Tillamook will be resumed at once and continued steadily until it is completed for
the entire projected length of eighty-six
miles. Work was stopped last November,
after twenty miles of track had been
laid. It is expected that the road will
be completed by June, 1919. The road,
when completed, will have cost in excess
of \$4,600,000.
Orders to resume control.

Orders to resume operations on the Til-lamook road, which, when completed, will be a feeder of the Harriman system, are the result of the recent visit of Julius Kruttschnitt to the Tillamook district, and his conference with Mr. Harriman or Pelican Fay

IF FREIGHT RATES ARE OUT WAGES WILL BE OUT

NEW ORLEANS, Sept. 1.—At a meet-ing last night of representatives of all branches of organized labor employed by railroads, a committee was appointed to visit the state capital and urge the railvisit the state capital and orige the rail-read commission to denist from its ef-forts to prevent the rollmans from rais-ing their freight rates. The railroad trainmen say they are convinced that if the railroads fail in their efforts to roise their freight rates, a cut in wages will ir freight rates, a cut in wages

BANCROFT AND DAVIS VISIT THE STRIKE CENTER

Vice-President and General Manager W. H. Bancroft and General Superintend-ent J. M. Davis of the Oregon Short Line left on a special train at 2 p. m. Tues-day for Kemmerer, Wyo, one of the strike centers in the coal fields. They will first go to Pocatello and then via the Short Line to the coal fields. The Short Line to the coal fields. The Short Line is very materially interested in the strike in the Wyoming district, as its coal supply comes from that source and the officials desire to learn at first what the strike situation is

NORTHERN PACIFIC WILL HOLD THE GOVERNMENT

HELENA, Sept. I.—The Northern Pacific and subsidiary companies, which are defendants in a suit recently instituted by the government to recover immensely valuable coal lands in this state, filed their answer today, which in effect is that the government cannot go back under its classification under which the tracts were awarded. It also states that the lands are not as valuable as indicated in the complaint. ed in the complaint.

STRUCTURAL STEEL FOR O. S. L. DEPOT ARRIVES

Two cars of the structural steel for the Oregon Short Line depot arrived in Sait Lake City, Tuesday, and another car is expected today. E. C. Dundas, who has the contract for this part of the work, is prepared to proceed at once with the construction, and in a week or ten days the building should assume proper shape.

Death of W. C. Modisett.

GREEN BAY, Wis. Sept. 1.—W. C. Modisett, aged 62, general freight and passenger agent of the Green Bay & Western railroad, and one of the best-known railway men in Wisconsin, died today from asthma. He formerly was connected with the Chicago, Burlington & Culney road.

RIGHT OF WAY FOR

ASSESSMENT NO. 6.

DIAMOND RING; BARGAIN, 969 LAIRU avenue, 12 to 2 p. m. f150

SOCIAL. WARM BISCUIT. THEY have exceptional merits, having gained a spiendid reputation, resulting from the unique combination compiled by an old chief cook who wishes to give those who do not know how to make fine baking-powder biscuits his expert method which took years of experience to attain. This is not a cookbook recipe, but every detail most explicitly given. You can make no mistake

The value of these biscuits lies not so much in the keen personal price of having that which is good to the taste but their CRISP, inviting influence builds up that resultant harmony which marks the intelligence of the good housewife.

Twenty-five cents brings you the complete working formula by return mail.
